Steel Structure Engineer (Internship Winter 2022)

Description

Type of internship: full-time – winter session 2022

Schedule: 40 hours per week

Workplace: Terrebonne office

Teleworking: According to public health rules (possible time sharing to be determined after Covid-19)

DPHV – D’Aronco, Pineau, Hébert, Varin is a specialized engineering consulting firm that offers professional and technical expertise in structural engineering, from design to construction, in a wide variety of fields: design, fabrication and construction of residential, commercial or industrial buildings, stadiums, airports, transportation and telecommunications infrastructures. We also offer services for securing work environments (temporary or permanent lifelines), expertises, inspections and analyses of existing structures at heights, on steep terrain (rope inspection) and in confined spaces.

The steel structure engineer-in-training will participate, under the supervision of the intern and in collaboration with the team of engineers and technicians, in the design of complex steel structure assemblies and will participate in the verification and preparation of engineering documents for bridge constructions and complex structures (stability verification, dimensioning of temporary elements, construction sequence). In addition, the intern may be involved in supervising and assisting in the preparation of shop drawings for fabrication purposes, in direct link with the plant.

Skills required :

- Bachelor’s degree in civil or building engineering in progress
- Knowledge of Autocad drafting software
- Knowledge of Tekla modeling software (an asset)
- Valid ASP card (an asset)
- Team spirit, resourcefulness, autonomy, sense of humor and good work organization
- French, oral and written, functional English.

The experience, dynamism and expertise of our engineers and technicians create an environment that promotes learning and the contribution of each individual allows us to imagine and design solutions that are adapted, practical and innovative for the various projects of our clients. Join our team of committed people!
