## Structural Technician – Project Coordinator

### Description

- Type of employment: regular, full-time
- Level: intermediate – advanced with project coordination
- Schedule: 40 hours per week
- Workplace: Laval (Sainte-Dorothée sector)
- Travel: Greater Montreal 10%.

### Who are we?

**DPHV** – D'Aronco, Pineau, Hébert, Varin is a specialized engineering consulting firm that offers professional and technical expertise in structural engineering, from design to construction, in a wide variety of fields: design, assembly and construction of residential, commercial or industrial buildings, stadiums, airports, transportation and telecommunications infrastructures. We also offer services for securing work environments (temporary or permanent lifelines), surveys, inspections and analyses of existing structures at heights, on steep terrain (rope inspection) and in confined spaces.

### Your profile:

We are looking for a structural technician for our design engineering team in our Laval office. Organized by nature, our future colleague will be called upon to actively participate, in collaboration with the DPHV engineering team, in the coordination of several technical aspects related to building construction projects or other structures. You will be involved from the survey stage, then during the preparation of models and/or structural engineering plans, and this, until the complete realization on site. You may also be involved in interventions on construction sites.

### Tasks and Key Responsibilities:

- Participate with project engineers in the development of structural drawings through AutoCad or REVIT via 3D modeling;
- Coordinate with other professional disciplines on site and subcontractors according to the different structural projects in progress;
- Ensure the quality of the work of his drafting team and compliance with internal standards;
- Participate in the establishment of drawing standards for his discipline;
- Ensure the technical quality and compliance of deliverables in his field of expertise;
- Ensure the technical quality and respect of the deliverables of his field of expertise; Ensure coaching of the other drafting technicians in the team;
- Conduct surveys of existing structures, site visits and structural inspections;
- Engage in other related responsibilities.
