TEKLA Coordinator Technician

Description

Are you the **steel structures enthusiast** we're looking for?

DPHV is a specialized consulting engineering firm that has been providing professional and technical expertise in **structural engineering** for over thirty years. Our team's experience and know-how have earned us an excellent reputation in the industry. In other words, we offer the technical agility of a large firm, **but the flexibility and humanity of an independent firm!** When you join our team, you get the best of both worlds!

Your **advantages** in joining our team :

- Salary commensurate with your professional experience on an hourly basis – so every hour worked is paid or can be taken as additional leave;
- Annual leave and sick leave;
- Group insurance program including life insurance, short- and long-term disability, drug and paramedical care and travel insurance for you and your family;
- DPSP program – employer-sponsored plan that allocates a portion of company profits to employees through a registered savings plan;
- Telecommuting policy with a program to reimburse equipment costs;
- Stimulating work environment;
- Continuing education program;
- Career development opportunity – coaching and mentoring program;
- Social activities organized throughout the year;
- Friday jeans every day;
- Free parking on site and/or nearby.

Your profile:

As a TEKLA Coordinating Technician, in collaboration with the Fabrication and Construction Engineering team, you will coordinate several technical aspects related to construction projects for buildings or other steel structures. Organized by nature, you will have experience of working in a 3D model-sharing environment and be able to manage all aspects of detailing, from modeling to detailing columns, beams, connections and all aspects of dimensioning and drawing annotation in order to produce fabrication drawings. A past master at reading structural drawings, you are used to producing RFIs (request for information) and providing answers as required.

Tasks and main responsibilities :

- Setting and maintaining DPHV drawing standards
- Analyze, understand and interpret information received on projects to be carried out, ensuring consistency of information;
- Determine and calculate functional, physical, dimensional, structural or geometric constraints on parts;
- Project coordination between customers and detail design subcontractors
- Produce shop and assembly drawings using Tekla (3D) software for the fabrication of various steel structure components;
- Produce assembly drawings containing the required sections and details;
- Maintaining customer relations and constant communication with project managers
- Other related duties and responsibilities

Hiring organization
DPHV

Employment Type
Full-time

Job Location
Laval

Date posted
2 January 2025

Your professional skills :

- DEP in building drafting / DEC in civil engineering, structural option
- Relevant experience in structural steel detailing (approx. 5 years);
- Excellent command of TEKLA software or significant experience with other similar parametric softwares
- Possession of an attestation de santé-sécurité générale sur les chantiers de construction (ASP card)
- Ability to work on several projects in parallel
- Organizational skills and an excellent team player;
- Fluency in spoken and written French
- Fluency in spoken and written English (several mandates in the U.S.)

The experience, dynamism and know-how of our team members create an environment conducive to learning, and everyone's contribution enables us to imagine and design solutions that are adapted, concrete and innovative to our customers' various projects. Join our passionate team!

An idea, a plan...a CAREER!
